

Creating Class Diagrams using Conceptual Model

Describe the classes and their relationships using class diagram

A mind map diagram with a central node labeled "Object Oriented Design" enclosed in an orange rounded rectangle. Two purple lines branch upwards from the top of the central node to two text nodes: "Creating Class Diagrams using Conceptual Model" on the left and "Describe the classes and their relationships using class diagram" on the right. Two pink lines branch downwards from the bottom of the central node to two text nodes: "Describe the interaction between the objects using sequence diagram" on the left and "Apply software design principles and design patterns" on the right.

Object Oriented Design

Describe the interaction between the objects using sequence diagram

Apply software design principles and design patterns
